

Free CPD online Crohn's and colitis education for GPs and physicians

You have access to online eLearning modules, interactive workshops and webinars to support you in the management of inflammatory bowel disease (IBD) through Crohn's & Colitis Australia's GP Aware Project.

You can access reliable information about:

1. The GP's role in early detection of Crohn's disease and ulcerative colitis
2. Early intervention, therapies, referral and triage
3. Management of IBD and preventative health
4. Multidisciplinary team-based care
5. Managing complex IBD issues – ages and stages
6. Managing complex IBD issues – relapse and comorbidities

CPD points are available through RACGP at the completion of modules and workshops.
