Crohn's & Colitis Awareness Month

1 - 31 MAY 2024

Imagine needing to know where the nearest toilet is every time you leave home, just in case it's urgent!

6 fast facts about inflammatory bowel disease

More than 100,000 – or 1 in every 250 Australians – live with these serious gut conditions

People living with Crohn's disease and ulcerative colitis face challenges every day

These invisible, chronic conditions also cause ulcers, cramping, pain and bleeding

There is currently no cure

Successful management involves a good support team & access to trustworthy information

Those living with IBD are fearless and show strength in managing their illness

May is Crohn's & Colitis Awareness Month. Together, let's start conversations about inflammatory bowel disease and spread awareness and understanding of Crohn's and colitis.

CCA support the Crohn's and colitis community by providing:

- Quality information via our website
- Information & education forums
- Volunteer-led support groups
- Phone advice: NurseLine and Helpline
- Youth & children's programs
- Advocacy
- Funding for life-changing research
- Can't Wait Card (member benefit)
